**High impact environmental charity seeks a professional, hard-working, and proactive individual with knowledge about building science and/or energy efficiency as it relates to homes to join as a Registered Energy Advisor.**

**Reep Green Solutions** is an environmental charity that helps people in Waterloo Region live sustainably. Current focus areas are home energy efficiency, water conservation, healthy yards, and waste reduction. In short, we work together with the community on practical solutions for addressing and adapting to climate change.

Our culture is “trusting, productive, and happy at work,” as one staffer put it. There is great joy in working on issues we feel passionately about!

If you are a Registered Energy Advisor (REA), a renovator or contractor, or if you have knowledge about building science or energy-efficient building practices, we invite you to investigate the possibility of becoming a residential energy efficiency advisor.
