

Helping people live sustainably

Posting for Board of Directors, Reep Green Solutions

Award-winning* environmental charity seeks board member

from the Region of Waterloo and beyond, and from diverse ages, backgrounds and sectors.

You care about our community and helping people live sustainably. You are concerned about climate change, the availability of clean water, air quality, and the integrity of our ecosystems.

*You want to support an ambitious goal that recognizes the urgency of climate action now: **By 2030, people impacted by Reep Green Solutions have taken 10,000 meaningful actions to collectively shift our community to a resilient, low carbon future.***

Reep Green Solutions is looking for board members who share our vision and passion, and who recognize the opportunities and importance of this unique challenge.

The organization: Reep Green Solutions is an environmental charity that has been helping people reduce their impact and adapt to climate change for over 20 years, through home energy efficiency, healthy yards, water conservation and waste reduction. We believe that by acting today, we can leave our children a community that is more resilient, vibrant, caring and sustainable.

Our culture is “trusting, productive, and happy at work”, as one staffer put it. There is great joy in working on issues we feel passionately about! One of our departing board members says “It has been wonderful working with such a competent and diverse board with an open communication and focused output-based decision-making.”

One Board Position currently open: We welcome applications from across the Region and beyond, with a particular interest in connections with:

- **affordable housing (including lived experience),**
- **skilled trades (especially training institutions/college)**
- **alternative financing/social impact investing**
- **Cambridge**

Interested individuals contact Sarah Smouter, Office and HR Coordinator, office@reepgreen.ca
Open to responses between January 3 to 31, 2023.

Reep Green Solutions has been making a difference since 1999:

- 20,000 homes evaluated for energy efficiency - 28,000 tonnes of CO₂ reduced
- \$55,000,000 in retrofit activity stimulated - 110,000 litres of stormwater capacity built
